About Operation HOPE, Inc.

Since 1992, Operation HOPE has been moving America from civil rights to “silver rights” with the mission of making free enterprise and capitalism work for the underserved—disrupting poverty for millions of low and moderate-income youth and adults across the nation. Through our community uplift model, HOPE Inside, which received the 2016 Innovator of the Year recognition by American Banker magazine, Operation HOPE has served more than 4 million individuals and directed more than \$3.2 billion in economic activity into disenfranchised communities—turning check-cashing

customers into banking customers, renters into homeowners, small business dreamers into small business owners, minimum wage workers into living wage consumers, and uncertain disaster victims into financially empowered disaster survivors.
